Introduction and purpose of plan

OWLS Academy Trust is exposed to a large number of events which have the potential to cause major disruption to our services. Although such events are rare, it is important that we have in place plans to help us manage and recover from these situations as they arise. Not only is this good practice, it is also considered essential for an organisation responsible for delivering high quality education to the community.

One of the problems in planning for a disaster is that it is impossible to predict what that disaster might be or when it might happen. Past experience has identified some potential threats that have caused disruption to education services, including flooding and storm damage, fire, civil unrest, and outbreaks of animal disease in rural areas.

In developing these plans we need to be mindful of any particular vulnerabilities or risks to which our school are exposed.

Rather than developing many plans to deal with every foreseeable eventuality, our plan is structured around the concept of failure or loss of access to the key resources we need to provide our services.

This means, irrespective of the cause, our plan focuses upon the loss of data, IT and communication systems, teaching spaces and equipment, office workspaces and facilities, and our human resources. In this way, regardless of whether the adverse event is a major fire, a bomb, or a flu epidemic, we have plans in place to effectively manage the loss of the affected resource.

The objectives of the plan are to ensure that, should an adverse event occur:

- We continue to protect the health, safety and wellbeing of our staff, students and users of our facilities.
- We continue to provide critical services to our students
- We achieve full, effective and efficient restoration of all services
- We communicate in a clear and timely manner to all our stakeholders
- We protect and enhance the reputation of our school

The plan does not provide a definitive list of all actions needed to be taken during an adverse event affecting our continuity, however, by producing, maintaining, and testing the plan, we will be more prepared, and will enhance our own capabilities in order to protect the school, our students and stakeholders, and recover in a more efficient and effective manner.

The Business Continuity Plan is maintained through the full support and endorsement of the Governors.

When & how to initiate the BCP

What constitutes a serious adverse event?

A serious adverse event is;

Any event that results in the failure or loss of a key resource and which maintains the potential to cause total loss or severe disruption to the work activity of a section or whole of the school for more than (e.g. 2) working days.

Note 1: It may not be apparent at first, how long the serious adverse event or loss of resource will endure. If in doubt, the Crisis Management Team will decide, based on the information available, on the extent to which the BCP needs to be activated.

Note 2: Although the full BCP may not be activated, the plan may still help to reduce the disruption to work activities that may be caused by any number of more minor events.

Recovery objectives and priorities

The recovery objectives and priorities of this plan are based upon the nature of our business, and have been developed in direct accordance with the results of a service impact analysis. The service impact analysis was conducted to provide a specific insight into the criticality of the different components of the school, and to ensure that our response to an adverse event which may affect continuity is efficient, effective and is focused entirely in accordance with the needs of the school, its students and our stakeholders.

In the event of the need to invoke the Business Continuity Plan, our recovery strategy will generally be based upon the following priorities:

Primary

- Information Technology and Communications
- Teaching activities and classroom accommodation
- School transport

Tertiary

- Trips and visits, access to shared facilities e.g. sports.
- Venue hire to community users

(The priority of some areas may be variable depending upon which part of a curriculum cycle an event occurs in e.g. accommodation is most critical during term time).

Recovery is based upon a;

(48 Hour) Short term; Recover, Relocate or Close Plan designed to recover the most critical processes, to temporarily close the school, or to provide alternative temporary accommodation.

(10 Day) Disaster Recovery or Temporary Accommodation Plan which will be invoked on completion of the 48 Hour Plan to recover all other processes.

Plan Initiation – serious adverse events occurring during normal working hours

The first consideration should be to the welfare of our staff, students and visitors. Existing emergency response and evacuation procedures should be followed for any event requiring building evacuation signalled by an alarm or on instruction by the emergency services.

For other types of adverse event, the person becoming aware of the situation should report their concerns immediately to the head teacher or their nominated deputy.

If the information available indicates that the incident might constitute a serious event resulting in severe disruption of service, then the head teacher or deputy should immediately contact a member of the Crisis Management Team (see below).

A critical service analysis will be prepared by the head teacher to indicate which resources, assets etc. must be maintained or recovered (by when) to allow the Business Continuity Plan to function. This will be maintained and regularly updated by the Governors

Plan Initiation – Serious adverse events arising outside of normal working hours

If the serious adverse event arises outside of normal working hours then it may be discovered by the first employee arriving on site. In these situations, the employee should immediately notify the head teacher or their nominated deputy. If neither is available, then their own line manager should be notified.

Serious adverse events which occur outside of normal working hours may also be notified to e.g. nominated key-holders, who should be instructed to contact the site Manager.

Once notified, if the information available indicates that the serious adverse event might result in the failure or loss of a key resource and which will cause total loss or severe disruption to the work activity of a section or division of the school, then the section head teacher or deputy should contact a member of the Crisis Management Team

Incident log.

A log recording the sequence of events, with times and records of actions taken must be maintained throughout the management process.

Testing and Maintenance of the Plan

Key components of the plan will be tested on an annual basis, or sooner if significant changes to the school, or its services are made. These tests will range from undertaking simple desk top scenario-based exercises through to more complex simulations involving non-notice activation of the plan.

Records of all tests will be maintained, and the results of the tests routinely analysed and used to make improvements to the plan.

Recording of Adverse Events

All adverse events which result in, or at least created the potential for, **significant** disruption to service for a period of more than 2 to 3 days will be recorded and reported using the Disruption to Service Record Form. All events will be investigated and analysed, and used to improve the robustness of the organisation and its response to such incidents where possible.

5.0 Business Continuity

5.1 Purpose of the Business Continuity Phase

The purpose of the business continuity phase of your response is to ensure that critical activities are resumed as quickly as possible and/or continue to be delivered during the disruption. This may involve activation one or more of your business continuity strategies to enable alternative ways of working. During an incident it is unlikely that you will have all of your resources available to you, it is therefore likely that some 'non critical' activities may need to be suspended at this time.

5.2 Business Continuity Actions

	ACTION	FUTHER INFO/DETAILS	ACTIONED? (tick/cross as appropriate)
1.	Identify any other stakeholders required to be involved in the Business Continuity response	Depending on the incident, you may need additional/specific input in order to drive the recovery of critical activities, this may require the involvement of external partners	☐
2.	Evaluate the impact of the incident	Take time to understand the impact of the incident on 'business as usual' School activities by communicating with key stakeholders to gather information. Consider the following questions: ▪ Which School activities are disrupted? ▪ What is the impact over time if these activities do not continue? ▪ Would the impact be: ○ Manageable? ☐ ○ Disruptive? ☐ ○ Critical? ☐ ○ Disastrous? ☐ ▪ What are current staffing levels? ▪ Are there any key milestones or critical activity deadlines approaching? ▪ What are your recovery time objectives? ▪ What resources are required to recover critical activities?	☐

	ACTION	FUTHER INFO/DETAILS	ACTIONED? (tick/cross as appropriate)
3.	Plan how critical activities will be maintained, utilising pre-identified or new business continuity strategies (See Section 5.3)	Consider: ▪ Immediate priorities ▪ Communication strategies ▪ Deployment of resources ▪ Finance ▪ Monitoring the situation ▪ Reporting ▪ Stakeholder engagement Produce an action plan for this phase of response.	☐
4.	Log all decisions and actions, including what you decide not to do and include your decision making rationale	Use the Decision and Action Log to do this. <i>The log template can be found in Appendix A</i>	☐
5.	Log all financial expenditure incurred	<i>The Financial Expenditure Log can be found in Appendix D</i>	☐
6.	Allocate specific roles as necessary	Roles allocated will depend on the nature of the incident and availability of staff	☐
7.	Secure resources to enable critical activities to continue/be recovered	Consider requirements such as staffing, premises, equipment, ICT, welfare issues etc.	☐
8.	Deliver appropriate communication actions as required	Ensure methods of communication and key messages are developed as appropriate to the needs of key stakeholders.	☐

5.3 Business Continuity Strategies

	Arrangements to manage a loss or shortage of Staff or skills	Further Information (e.g. Key contacts, details of arrangements, checklists)
1.	Use of temporary staff e.g. Cover Supervisors, Supply Teachers, Office Staff etc.	
2.	Multi-skilling and cross-training to ensure staff are capable of undertaking different roles and responsibilities, this may involve identifying deputies, job shadowing, succession planning and handover periods for planned (already known) staff absence e.g. maternity leave	
3.	Using different ways of working to allow for reduced workforce, this may include: • Larger class sizes (subject to adult and child ratios) • Use of Teaching Assistants, Learning Support Assistants • Virtual Learning Environment opportunities • Pre-prepared educational materials that allow for	

	independent learning • Team activities and sports to accommodate larger numbers of pupils at once	
4.	Suspending 'non critical' activities and focusing on your priorities	
5.	Ensuring Staff management issues are considered i.e. managing attendance policies, job description flexibility and contractual requirements etc.	

	Arrangements to manage denial of access to your premises or loss of utilities	Further Information (e.g. Key contacts, details of arrangements, checklists)
1.	Pre-agreed arrangements with other premises in the community i.e. Pavillion	
2.	Virtual Learning Environment opportunities	
3.	Localising the incident e.g. isolating the problem and utilising different sites or areas within the School premises	
4.	Off-site activities e.g. swimming, physical activities, school trips	

	Arrangements to manage loss of technology / telephony / data / power	Further Information (e.g. Key contacts, details of arrangements, checklists)
1.	Back-ups of key school data – daily, held off-site	
2.	Reverting to paper-based systems e.g. paper registers, whiteboards etc.	
3.	Flexible lesson plans	
4.	Emergency lighting	

	Arrangements to mitigate the loss of key suppliers, third parties or partners	Further Information (e.g. Key contacts, details of arrangements, checklists)
1.	Ensuring all external providers have business continuity plans in place as part of contract terms	
2.	Insurance cover	
3.	Using alternative ways of working to mitigate the loss e.g. suspending activities, adapting to the situation and working around it	

6.0 Recovery and Resumption

6.1 Purpose of the Recovery and Resumption Phase

The purpose of the recovery and resumption phase is to resume 'business as usual' working practises for the School as quickly as possible. Where the impact of the incident is prolonged, 'normal' operations may need to be delivered under new circumstances e.g. from a different location.

6.2 Recovery and Resumption Actions

	ACTION	FUTHER INFO/DETAILS	ACTIONED? (tick/cross as appropriate)
1.	Agree and plan the actions required to enable recovery and resumption of normal working practises	Agreed actions will be detailed in an action plan and set against timescales with responsibility for completion clearly indicated.	☐
2.	Respond to any ongoing and long term support needs of Staff and Pupils	Depending on the nature of the incident, the School Incident Management Team may need to consider the use of Counselling Services	☐
3.	Once recovery and resumption actions are complete, communicate the return to 'business as usual'.	Ensure all staff and key stakeholders are aware that the business continuity plan is no longer in effect.	☐
4.	Carry out a 'debrief' of the incident with Staff (and possibly with Pupils). Complete a report to document opportunities for improvement and any lessons identified	The incident de-brief report should be reviewed by all members of the School Incident Management Team and in particular by the Headteacher to ensure key actions resulting from the incident are implemented within designated timescales. Governors may also have a role in monitoring progress in completing agreed actions to further develop the resilience of the School.	☐
5.	Review this Continuity Plan in light of lessons learned from incident and the response to it	Implement recommendations for improvement and update this Plan. Ensure any revised versions of the Plan is read by all members of the School Incident Management Team.	☐
